Co Q 10

Co Enzyme Q10

- ◆ May help with muscle weakness
- ◆ Improves cardiovascular system
- ◆ Boost energy and stamina and combats fatigue
- ◆ Anti aging with its anti-oxidant properties
- ◆ chronic or debilitating muscle weakness
- ◆ May help with the immune system
- ◆ Supports cognitive function
- ◆ Fights side effects of statin drugs

Co Q10 is an essential part of cell synthesis and plays a vital role in cell metabolism. It is an anti-oxidant made in the human body. Fights free radical damage as an anti oxidant

reducing oxidative states.

It is found throughout the body; especially, the heart, liver, and kidney. Co Q10 is commonly used for individuals taking the high cholesterol medications referred to as statins, which have side effects. The Co Q10 will reduce the side effects of statin drugs.

Dosage
