RESVERATROL

- ◆ Prevents damage to blood vessels
- ◆ Support cardiovascular health
- ◆ Reduces LDL (bad cholesterol)
- ◆ Prevents blood clots
by reducing platelet aggregation

Resveratrol is heart healthy. Resveratrol is a naturally occurring antioxidant in a variety of plants, grapes, peanuts, blueberries, cranberries and red wine. All of these have been studied for heart health. Resveratrol does this by inhibiting the degradation of lipid.

Dosage:

1 Tablet 1 -2 per day

Precautions:

If you have a bleeding disorder or planning any surgery or dental work stop using Resveratrol 14 days prior to surgery.
